Dear Robert

On behalf of the Board at BrightSpark Foundation I'd like to express my sincere gratitude and appreciation for the many years of fantastic service and generosity that Compu-Stor has provided to the Foundation.

As you know, BrightSpark has been active in WA for over 30 years, supporting innovative scientific research into child health. It has spent over \$7 million to date and as the Foundation has grown from strength to strength, so too have our storage needs.

Compu-Store has been more than generous- accommodating our expanding needs free of charge over the years. It is because of benevolence like this that BrightSpark continues to operate on minimal infrastructure. In this way our funds go directly to the researchers and their projects advancing the global scientific pool and benefiting all children.

Please pass on our thanks to the team at Compu-Stor. We look forward to working with you in the future and wish you continued success.

Sincerely,

Megan Aitken
Foundation Manager
